

SUNR Circle — Complete Setup & Reference Guide

Complaint Management System · v1.0.0 · June 2026

Flutter Mobile App + Next.js Admin Panel + Supabase Backend

GitHub: <https://github.com/ritesh-vyas-bacancy/sunr-circle> · Admin Panel: <https://admin-pi-blue.vercel.app> · Supabase: [oaftuyikaxgzlyyzenk](https://oaftuyikaxgzlyyzenk.supabase.com)

A. Live System — Access Right Now (No Setup Needed)

The system is fully deployed. Use these links and credentials to explore the live system before doing any local setup.

Live Application URLs

Application	URL	Use For
Admin Panel	https://admin-pi-blue.vercel.app	Back Office & Top Management login
Mobile Web App	https://mobile-8r6vot225-riteshs-projects-06cfd76.vercel.app	Call Centre, Line Man, Top Mgmt — open on phone too
GitHub Repository	https://github.com/ritesh-vyas-bacancy/sunr-circle	All source code, 283 files
Supabase Dashboard	https://supabase.com/dashboard/project/oaftuyikaxgzlyyzenk	Database, Auth, Storage
Vercel Dashboard	https://vercel.com/riteshs-projects-06cfd76/admin	Deployment management

Test Login Credentials — All 4 Roles

Role	Email	Password	Where to Login
Back Office	admin@sunrcircle.in	Admin@Sunr2024	Admin Panel
Top Management	manager@sunrcircle.in	Manager@Sunr2024	Admin Panel
Call Centre	callcentre@sunrcircle.in	CallCentre@Sunr2024	Mobile Web App
Line Man	lineman@sunrcircle.in	LineMen@Sunr2024	Mobile Web App

What to See on the Live Admin Panel (login as Back Office)

Menu	What You See
Dashboard	5 stat cards: Total 4 complaints, Open 1, Closed 3. Recent complaints list.
Complaints	4 sample complaints (FC12345–FC12348) with status badges, 7 search/filter options, action menus
Reports → Charts & Graphs	Pie chart, Bar chart (colored by status), Line chart (trend), Area chart (volume), Sub-division bar, Nature bar
Reports → Table View	Full complaint data table, Export Excel button, Export PDF button
Offices	2 circles, 6 divisions, 15 sub-divisions (Surendranagar circle with 4 divisions added)
Users	4 test users: Admin User, Manager User, CC Agent Ramesh, Line Man Suresh
Organisation	SUNR Circle org settings, logo, theme colour editor

What to See on the Live Mobile Web App

Login As	Features Available
Call Centre	Dashboard, Create Complaint (with duplicate number check), History, Search
Line Man	Dashboard, Open Complaints (tap to Accept), Assigned queue, Update Status with remarks
Top Management	Stats overview (6 stat cards), All Complaints read-only, Statistics progress bars, Settings

B. New Laptop Prerequisites

#	Tool	Required Version	Download URL
1	Git	Any	git-scm.com/download/win
2	Node.js	20 LTS or higher	nodejs.org (download LTS)
3	Flutter SDK	3.19+	docs.flutter.dev/get-started/install/windows
4	Android Studio	Latest	Already installed on this laptop

Flutter SDK Setup on Windows

1. Download zip from docs.flutter.dev and extract to `C:\flutter` (no spaces in path, NOT in Program Files)
2. Add to Windows PATH (run PowerShell as Administrator):

```
[System.Environment]::SetEnvironmentVariable("PATH", $env:PATH + ";C:\flutter\bin", "Machine")  
# RESTART PowerShell/Terminal after this command
```

3. Verify installation:

```
flutter --version  
flutter doctor          # Should show all green checkmarks  
flutter doctor --android-licenses  # Accept licenses once
```

C. Clone and Run Locally

Step 1 — Clone Repository

```
git clone https://github.com/ritesh-vyas-bacancy/sunr-circle.git  
cd sunr-circle
```

Step 2 — Admin Panel

```
cd apps/admin  
npm install
```

Create file `apps/admin/.env.local` with these exact values:

```
NEXT_PUBLIC_SUPABASE_URL=https://oaftuyikaxgzlyyzgenk.supabase.co
NEXT_PUBLIC_SUPABASE_ANON_KEY=eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9.eyJpc3MiOiJzdXBhYmFzZSIsInJlZiI6Im9hZnR1eWlrYXhnbemx5eXpnZW5rIiwicm9sZSI6ImFub24iLCJpYXQ0IjE3ODAyMjI5NDYsImV4cCI6IjA5NTc5ODk0Nn0.1MF1h_MEyW78aVpmA7lnXoi
XT-AmpsFX1QAzgAyWr-0
SUPABASE_SERVICE_ROLE_KEY=eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9.eyJpc3MiOiJzdXBhYmFzZSIsInJlZiI6Im9hZnR1eWlrYXhnbemx5eXpnZW5rIiwicm9sZSI6ImNlcnZpY2Vfcmlhbmh0IiwiaWF0IjE3ODAyMjI5NDYsImV4cCI6IjA5NTc5ODk0Nn0.1MF1h_MEyW78aVpmA7lnXoi
V1NV41-nqsGCakAVS8FyKzNjNDE
AUTH_SECRET=sunr-circle-auth-secret-key-2024-production-ready
AUTH_URL=http://localhost:3000
NEXT_PUBLIC_APP_NAME=SUNR Circle Admin
NEXT_PUBLIC_ENVIRONMENT=development
NEXT_PUBLIC_ORG_ASSETS_BUCKET=org-assets
NEXT_PUBLIC_COMPLAINT_ATTACHMENTS_BUCKET=complaint-attachments
```

Step 3 — Flutter Mobile App

```
cd apps/mobile
flutter pub get
```

Create file `apps/mobile/.env` :

```
SUPABASE_URL=https://oaftuyikaxgzlyyzgenk.supabase.co
SUPABASE_ANON_KEY=eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9.eyJpc3MiOiJzdXBhYmFzZSIsInJlZiI6Im9hZnR1eWlrYXhnmex5eXpnZW5rIiwicm9sZSI6ImFub24iLCJpYXQiOiJlMjE0MDYyMjE0NDYyImV4cCI6IjE5NTc1ODk0Nn0.1MF1h_MEyW78aVpmA7lnXoiXT-AmpsFX1QA
zgAyWr-0
ENVIRONMENT=development
APP_VERSION=1.0.0
SUPPORT_EMAIL=support@sunrcircle.in
```

```
flutter run --dart-define-from-file=.env # Runs on connected device/emulator
```

Syncfusion License (for Statistics Charts screen): Free community license at syncfusion.com/products/communitylicense.
Add to lib/main.dart before WidgetsFlutterBinding.ensureInitialized(): `SyncfusionLicense.registerLicense('YOUR_KEY');`

D. Setup Verification Checklist

- ☐ Git installed and git --version works in terminal
- ☐ Node.js 20+ installed and node --version shows v20+
- ☐ Flutter SDK at C:\flutter and flutter --version works
- ☐ flutter doctor shows all green checkmarks
- ☐ Android emulator starts from Android Studio Device Manager
- ☐ Repository cloned: git clone https://github.com/ritesh-vyas-bacancy/sunr-circle.git
- ☐ apps/admin/.env.local created with credentials from Section C
- ☐ apps/mobile/.env created with credentials from Section C
- ☐ npm install completed in apps/admin folder
- ☐ flutter pub get completed in apps/mobile folder
- ☐ Admin panel loads at http://localhost:3000/login
- ☐ Login with admin@sunrcircle.in / Admin@Sunr2024 reaches Dashboard
- ☐ Complaints menu shows 4 complaints
- ☐ Reports menu loads with Generate Report button and all filters
- ☐ Generate Report shows Charts and Graphs tab with Pie chart visible
- ☐ Flutter app installs on emulator/device and shows Login screen
- ☐ Flutter login with callcentre@sunrcircle.in / CallCentre@Sunr2024 works

Pro Tip: The live admin panel (<https://admin-pi-blue.vercel.app>) and mobile web app connect to the same Supabase database. You can compare your local setup with the live system at any time using the same login credentials.

E. Common Issues and Solutions

"flutter" is not recognized

```
# PowerShell as Administrator, then restart terminal:  
[System.Environment]::SetEnvironmentVariable("PATH", $env:PATH + ";C:\flutter\bin", "Machine")
```

Admin panel page shows error

Check .env.local has all values. Most common cause: missing or incorrect SUPABASE_SERVICE_ROLE_KEY. Restart dev server after editing env file.

No Android device found

```
flutter devices    # Lists all connected devices
# Open Android Studio > Device Manager > create and start an emulator
```
